

RTI PIKO 80

The powerful but compact RTI PIKO 80 is suitable for outdoor laser show applications at concerts, festivals, and other huge events with easy operation due to the built-in software and DMX control. The PIKO is equipped with the latest **RSL Semiconductor modules (RSL)** making it an amazing laser for beam shows and demanding graphic projections such as laser mapping or projections over long distances. The high-end performance is part of the PIKO's DNA and makes this possible due to the great performance combination of the semiconductor RSL & top scanners

- 80 W guaranteed power
- Advanced **RTI Semiconductor laser modules (RSL)** produce a perfect shaped beam profile for red & blue and green.
- **Maintenance free laser system**
- **RSL modules with no color misalignment**
- **New advanced sealed optical section with no color misalignment**
- Graphics capable - scanners
- Full-color mixing
- Extremely sharp intense beams - low divergence
- **Integrated intelligent LaserAnimation Sollinger Mainboard** and ShowNET Laser Mainboard
- **Integrated Touch-Display** for adjustment of basic functions
- **Integrated network switch** for linking the control signal
- FB4-QS MAX optional integration
- Rugged tour-grade compact housing
- **360° Bracket with quick-lock system**

MODIFICACIONES DISPONIBLES:

*Debido a la tecnología de corrección óptica avanzada utilizada en nuestros sistemas láser, la potencia óptica de cada color dentro de los módulos láser instalados puede diferir ligeramente de la especificación de los respectivos módulos láser. Divergencia FWHM media según modelo.
